LUXURY MEANS HAVING WHAT MATTERS

Luxury isn't about glitter or gold. It's about seeking and nourishing what's truly important. The ŠKODA SUPERB is a car that embraces true luxury with none of the clichés. With a sophisticated design, comfortable technologies and endless practicality, it's a car that impresses with everything that matters.

The SUPERB can satisfy even the most diverse demands on appearance and equipment, and is available in unique versions such as the exclusive Laurin & Klement, the stylish SportLine, and the rugged Scout.

That's Simply Clever. That's ŠKODA.

EXTERIOR DESIGN

MAKE A BOLD UNDERSTATEMENT

Elegance meets harmony in the SUPERB. The front, with its distinctive bumper, grille, and headlights, presents a dynamic, yet determined look. The fog lights are also unmistakable. In addition to their utility functions, they play a key design role.

STYLE AND FUNCTIONALITY

Perfectly balanced proportions give the car a graceful appeal. The SunSet tinted windows in the rear improve the exterior look as well as passenger comfort. The car's distinctive look can be further underlined with the Black package (available in combination with full LED Matrix headlights and full LED tail lights). It includes glossy black features such as the front grille, roof railings, window frames, exterior side-view mirror caps, and inscriptions on the 5th door.

LIGHTS DON'T SHOW, THEY REVEAL

Advanced technology is made beautiful in the light design of the SUPERB. The top-end option comes with full LED Matrix headlights, which offer improved road lighting and a higher degree of safety.

FULL LED TAIL LIGHTS

Fitted with animated turn indicators, full LED tail lights significantly improves the visibility of your car for other drivers. The lights are complemented by a chrome strip that comes exclusively in combination with full LED tail lights.

FULL LED MATRIX HEADLIGHTS

Using a windscreen camera, the full LED Matrix headlights can detect a car in front of you or in oncoming traffic. Based on this, the high beam adjusts itself incrementally. This ensures you get the best view without blinding other drivers.

INTERIOR DESIGN

QUALITY AS A STANDARD FEATURE

Every interior feature has been designed to make travelling comfortable. Enjoy the feeling of luxury with attractive décor, upholstery, door armrest stitching, chrome details and the LED ambient lighting running along the inside of the interior.

LED AMBIENT LIGHTING

You can choose your favourite colour, or complement each day with one of ten amazing colour options (turquoise shown). This is also reflected by the Virtual Cockpit background illumination.

DECORATIVE FEATURES

The interior features high-quality materials and precise workmanship, which is highlighted with the armrest and upholstery stitching. Plenty of chrome details can be found on the dashboard, doors, steering wheel and gearstick knob.

CONNECTIVITY

ŠKODA CONNECT: TAKE THE ONLINE WORLD WITH YOU

Stay connected wherever you are. Being fully and permanently online means always having access to entertainment, information, and possible assistance while on the move. ŠKODA Connect is your gateway to a world of unlimited communication options.

CALENDAR

With the Calendar app, designed for work-related activities, you can spend your travel time productively and safely. The application allows you to conveniently access and interact with your calendar while driving. Using the navigation button, the Calendar app will navigate you to your planned meetings. You can also join conference calls using a connected mobile phone. All of the content is synchronised online and linked to your account for seamless transition between your devices.

PARKING POSITION

The vehicle sends its location data to the backend server once the journey is completed. You can then find the position of your parked vehicle using the MyŠKODA app.

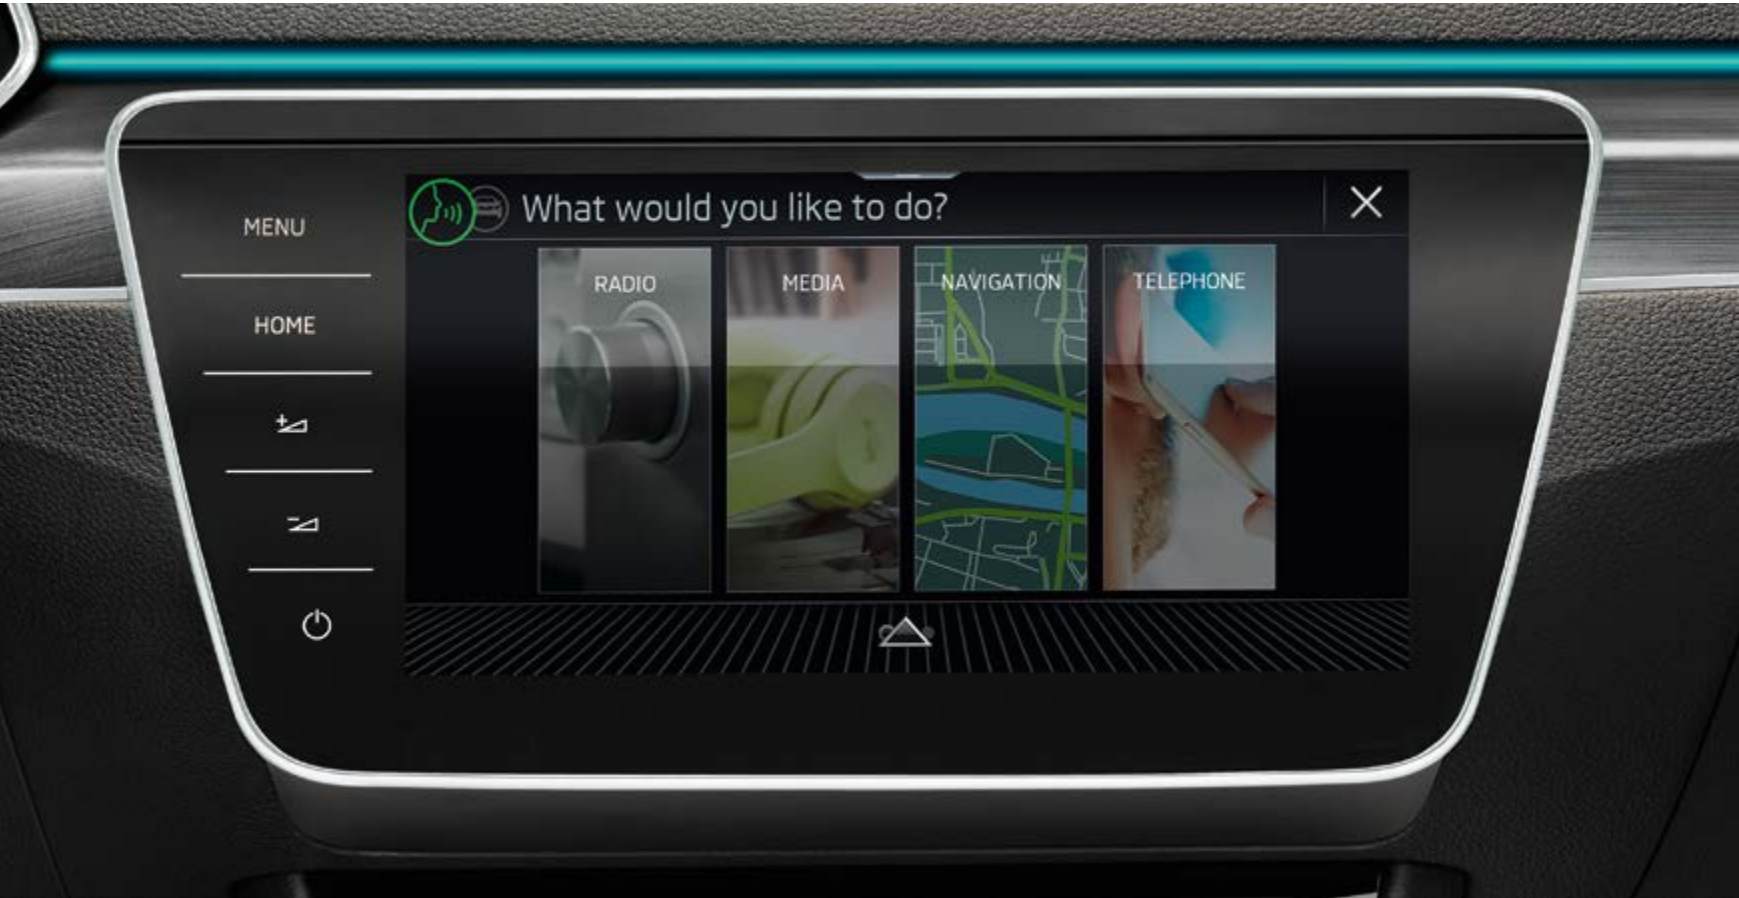

ONLINE TRAFFIC INFORMATION

With Online Traffic Information, you always get up-to-date information, saving you time and the stress of sitting in traffic jams. If enabled, the navigation system will automatically recalculate the route to arrive at the destination just in time.

ADDITIONAL CONNECTIVITY OPTIONS

Discover additional options and features. For example, with Laura, a digital voice assistant is available in your car. With the SmartLink feature, supporting Apple CarPlay and Android Auto, the car’s infotainment system allows you to use your phone safely while driving. You can also enhance the in-car connectivity with additional Infotainment apps such as Weather, News, Digital manual, Traffication, and many more.

LAURA DIGITAL VOICE ASSISTANT

This online-based voice control system understands fluent sentences. Say the destination with natural voice input, dictate text messages, or even ask her to tell you a joke. The online part of Laura is ready for anything. To start fulfilling your wishes, simply contact her by saying “Okay, Laura!”

TRAFFICATION

The Traffication app increases your safety by providing traffic-related warnings from the vicinity of the vehicle. Running in the background, it alerts you if you are attempting to drive the wrong way down a road. Notifications are also shown in the event that hazard lights are activated in the radius of your vehicle.

**SIMPLY
CLEVER**

A POCKET FOR EVERYTHING THAT MATTERS

The SUPERB features a multitude of compartments, pockets and holders, keeping your elegant interior tidy, and your belongings safe from loss, breakage or spillage.

JUMBO BOX

The spacious Jumbo Box storage compartment is housed in the front armrest. You can store your electronic items safely inside or cool it to keep your snacks fresh. A dual drinks holder with easy-open function can also be found on the centre console.

GLOVE COMPARTMENT

The practical storage compartment is located in the dashboard on the front passenger side.

POCKETS ON THE BACKREST

Storage pockets on the insides of the front seat backrests can hold a mobile phone, for example, or other small items.

UMBRELLA BOX

An ingenious umbrella storage compartment is fitted inside the driver's door. It is designed to let water drain away from the car, keeping the interior dry. The original ŠKODA umbrella comes as part of the equipment.

LUGGAGE COMPARTMENT

CARRY ALL THAT MATTERS

The luggage compartment capacity traditionally puts the flagship ŠKODA at the top of its class for space. The combi version offers either 660 litres or 1,950 litres after folding down the rear seats, while the liftback version offers 625/1,760 litres. But maximising space is nothing without maximising practicality. That's why we added Simply Clever solutions that make handling luggage even easier.

FLEXIBLE ORGANISER

The aluminium flexible organiser (exclusively for the combi version with a double floor) enables you to split the space according to your needs and makes it easier to keep things neat and tidy.

DOUBLE FLOOR

The double floor provides easier luggage handling or a discrete storage place, with the bottom of the luggage compartment positioned at loading edge level.

NET PROGRAMME

The set of nets increases the flexibility of the luggage space while tightly securing objects. It includes one horizontal and two vertical nets. You can add a further net under the luggage compartment cover in the liftback version.

COMFORT

COMFORT AT YOUR COMMAND

Technology is nothing if it doesn't simplify your driving experience. Loaded with thoughtful features and sophisticated assistant systems, the SUPERB will indulge you in absolute comfort and support your driving confidence, whether keeping you relaxed on longer journeys or being entertained on the go.

KESSY

With the new version of the KESSY (Keyless Entry, Start and exit System) all doors can be used to unlock or lock the car.

ELECTRICALLY-CONTROLLED 5TH DOOR AND VIRTUAL PEDAL

The electrically-controlled 5th door opens and closes at the mere touch of the button on the remote control, central panel or directly on the 5th door. You can also adjust the upper door position to suit your needs. The door can be equipped with a virtual pedal enabling contact-free access.

AREA VIEW

You will feel much more confident behind the steering wheel with four cameras that sense the space around the entire vehicle. They are located in the front grill, external side-view mirrors and on the handle of the 5th door. The picture is transmitted in real time to the infotainment display so you can react quicker to whatever comes your way. The functionality of the camera located on the handle of the 5th door is improved by integrated washers controlled via infotainment system.

VIRTUAL COCKPIT

A perfect overview is provided by the Virtual Cockpit, which can display on-board computer specifications in combination with other information such as navigation, for example. You can choose from five layouts, controlled via the View button on the multifunctional steering wheel – Classic view (shown), Modern view, Extended view, Basic view (suitable when driving at night or on the motorway) and Sport view.

ENLARGED PHONE BOX

The new SUPERB comes with an enlarged phone box which creates an amplified signal for your mobile device and, at the same time, wirelessly charges your phone while driving. This compartment is not only easily accessible, but is also suitable for large display devices.

AIR CARE AND AIR QUALITY SENSOR

The Climatronic air conditioning features a smart Air Care function and Air Quality Sensor that contribute to cleaner air in the vehicle. Air Care can clean dust from the interior and must be activated by the driver via the Climatronic menu. The Air Quality Sensor, which detects excessive air pollution, responds automatically by switching to internal air circulation mode, taking into account the possibility of the window fogging up. This function needs to be activated only once in the infotainment system.

CANTON SOUND SYSTEM

Enjoy absolute sound clarity, whether it's music or the spoken word, on the Canton Sound System with twelve speakers, including a speaker in the dashboard and subwoofer in the luggage compartment. The total power output is 665 Watts.

COMFORT IN THE BACK

On the rear part of the Jumbo Box you will find a socket (230 V or 12 V) and two USB slots, enabling mobile phone charging. In the car equipped with 3-zone Climatronic air conditioning, you will also find the control for the rear seat zone here.

MEMORY AND MASSAGE FUNCTIONS

The electrically-adjustable driver seat with built-in memory can store three different positions. The massage function (also available for the electrically-adjustable passenger seat) is optional. This superior level of comfort is always accompanied by ventilated front seats, upholstered in perforated leather.

SAFETY

TRAFFIC JAM ASSIST / FOLLOW DRIVE

This function is designed to facilitate driving in traffic jams. By controlling the engine brakes, and steering, it makes the vehicle pull away, brake, and turn to copy the movement of the surrounding vehicles (at speeds of up to 60 km/h). If lanes are not detected at speeds of up to 30 km/h, or only one lane (line) is detected at speeds of up to 60 km/h, the Follow Drive system follows the trajectory of the vehicle in front of you until lane markings are available again.

TRAVEL ASSIST

The Travel Assist system as well as its higher version combine the functions of several assistants and ensure that you feel safe and comfortable, no matter where you drive. For maximum safety, the system must be constantly monitored by the driver. That's why a capacitive steering wheel detects the driver's tactility, providing an interactive interface to the system. If the driver is not engaged in driving, this behaviour is detected by the capacitive steering wheel.

PREDICTIVE ADAPTIVE CRUISE CONTROL

Using a radar device, camera equipped with traffic sign recognition, GPS technology and detailed information from the road map, pACC can predict driving conditions for the next 1–2 km. As a result, the system can automatically adjust the cruise speed when necessary – typically before a turn or roundabout, or when entering an area with a reduced speed limit. The system increases driver comfort and driver safety while also reducing fuel consumption and CO₂ emissions.

ADAPTIVE LANE ASSIST

The system is capable of keeping the car in the middle of the correct lane and of alerting the driver in case of deviation. It can also take control of the car in the event of lane changes during roadworks.

EMERGENCY ASSIST

Emergency Assist reduces the risk of an incident in the event of the driver's sudden health collapse, for example, by safely stopping the car and turning on the warning lights.

TRAFFIC SIGN RECOGNITION

The system uses the camera in the rear-view mirror to scan the traffic signs on the current stretch of road and notify the driver of traffic signs. The system is able to identify signs on both the left and right side, as well as above the road. Moreover, it is able to identify variable traffic signs too (electronic information boards).

ADDITIONAL EXPERTS ON BOARD

You can encounter various things on the road. To ensure that the car is ready to handle all situations that may occur en route, additional assistants with multiple functions are on hand to help or fill in for the driver.

MATRIX BEAM FUNCTION

The full LED Matrix headlights feature matrix beam function. This allows you to use the high beams continuously, without blinding other drivers. Using a windscreen camera, the matrix beam function responds to the traffic situation and turns off only some segments of the light. Other segments are turned on and illuminate the road. The matrix beam function also uses information from the navigation system. Thanks to it, the high beams will only turn on when you are out of a built-up area.

CREW PROTECT ASSIST

This assistance system provides increased protection for front-seat passengers in critical situations that could lead to a crash or overturning by closing the side windows to leave only a 5 cm gap, shutting the roof window, and tightening seatbelts.

MULTI-COLLISION BRAKE

In case of an accident, the Multi-Collision Brake starts braking to prevent further uncontrolled movement of the vehicle, thus reducing the likelihood of further collisions.

iv

PLUG INTO THE FUTURE

The ŠKODA SUBERB iV unites an innovative hybrid technology with the iconic design and spaciousness of a SUPERB. The car is available in Ambition, Style, and Laurin & Klement equipment levels and even in a unique SportLine version.

CHARGING

The plug situated behind the grille enables the practical charging of the electrical engine. When charging at home and connected to a conventional electrical grid, the battery (if completely empty) will be fully recharged within five hours. The charging time can be shortened to three hours and thirty minutes with a wall box or at a charging station that supports fast charging.

MODES AND FUNCTIONS

The default Hybrid mode switches automatically between petrol and electric drive, and comes with integrated functions such as Battery Hold (maintain battery charge level) and Battery Charge (charge battery via TSI engine) that can be controlled via the infotainment system. Using buttons on the central console, you can choose E-mode, which delivers a pure electrical drive, and Sport mode enabling a drive with a full system power of 160 kW. The car also features increased energy recovery functionality during engine braking. It allows effective use of the car's kinetic energy for battery recharging. Thanks to this function, activated via the B symbol located between automatic transmission modes, the electric drive can offer you increased driving range.

ENGINES

The 1.4 TSI engine offers 115 kW, the electric motor generates 86 kW and the full system power is 160 kW. The battery with a capacity of 13 kWh is located under the floor in front of the rear axle and powers you for an approximately 62 km drive, making this model the ideal choice for driving in the city: cheap, green and quiet. During a purely electrical drive, the eSound acoustic system is activated, alerting pedestrians that a car is coming. The system operates both when driving forward (at speeds of up to 25 km/h) and when reversing (up to 10 km/h).

**LAURIN
& KLEMENT**

TRUE LUXURY IS HAVING A CHOICE

If L&K is shorthand for exclusive, then the ŠKODA SUPERB LAURIN & KLEMENT is our most exceptional offering. Bedecked with the highest version of equipment including plenty of chrome exterior and interior elements, comfort features, and advanced technology, this car comes with remarkable levels of craftsmanship and precision. After all, true luxury is about choosing it all.

STYLE AND FUNCTIONALITY

The exclusive interior comes with leather/leatherette upholstery in beige, black or new Cognac Brown (shown) that further emphasises the individuality of the Laurin & Klement version. The car also features Piano Black décor and plenty of chrome details.

Both of the front seats are electrically-adjustable. The driver seat also features built-in memory. The multifunction leather steering wheel lets you control the radio, your phone, and, alternatively, the DSG.

LOGO

The Laurin & Klement logo embroidered on the leather seat backrests is another stamp of exclusivity.

SPORTLINE

TIME TO GET SOME SPORTY CLOTHING

Comfort usually isn't a metaphor for sportiness. But these two make a thrilling combination inside the ŠKODA SUPERB SPORTLINE thanks to its razor-sharp looks, together with glossy black exterior elements, and a host of specific accoutrements, including lower chassis and sporty interior.

SPORTLINE DESIGN

The multifunctional sports steering wheel in black perforated leather with silver stitching allows you to control the radio, phone and alternatively DSG. The Virtual Cockpit, which features specific graphics for the SportLine version, comes as standard.

STYLE AND FUNCTIONALITY

Front and rear sports seats, upholstered in a combination of black Suedia and leather/leatherette with silver stitching, provide maximum comfort even during a dynamic drive. For that maximum sporty feeling, front seats which feature cushion depth adjustment are available as an option. The electrically-adjustable front seats with built-in memory come as standard. The distinctive and extremely durable Suedia upholstery is also incorporated in the door inserts.

UPHOLSTERY, WHEELS AND COLOURS

The upholstery in a combination of black Suedia/leather/leatherette comes as standard.

The black perforated leather/leatherette upholstery and ventilated front seats are optional.

18" VELA Aero black alloy wheels come as standard.

19" VEGA anthracite alloy wheels are optional.

The sporty look of your car can be underlined with optional 19" SUPERNOVA black alloy wheels.

scout

HIGH-END EVEN AFTER HIGHWAYS END

While the ŠKODA SUPERB SCOUT, armed with protective exterior elements, higher chassis and rough road package, handles bumpy roads, you'll stay in absolute comfort inside the incredibly spacy interior, surrounded by high-quality materials and details. All made with ŠKODA's craftsmanship precision. The car comes exclusively in the combi version.

COMFORT AND FUNCTIONALITY

The high-quality fabric upholstery is not only exceptionally durable, but also provides maximum comfort for all passengers. The Scout version can also be equipped with black Suedia/leather/leatherette upholstery (shown), which can be further complemented by optional Suedia door inserts. The electrically-adjustable driver seat with built-in memory comes as standard.

STYLE AND SAFETY

The multifunctional leather steering wheel, which lets you control the radio, phone and alternatively DSG, is equipped with heating function, controlled via the infotainment system. The car also comes with Driving Mode Select, including the off-road mode, or in other words, Downhill Assist which maintains consistent speed when driving down precipitous sections.

STYLISH DETAILS

The dashboard features the original Scout badge and remarkable Ash Brown décor (shown) or Dark Brushed décor with a decorative chrome strip. The LED ambient lighting running along the inside of the car offers ten appealing colour options.

LOGO

The Scout logo is embroidered on the front seat backrest.

UPHOLSTERY, WHEELS AND COLOURS

Black fabric upholstery comes as standard.

Black Suedia/leather/leatherette upholstery is optional.

18" BRAGA alloy wheels come as standard.

The distinctive look of the car can be underlined with optional 19" MANASLU anthracite alloy wheels.

CUSTOMISATION

AMBITION

The standard equipment of the Ambition version includes chrome grille, electrically-folded external side-view mirrors with auto dimming and Boarding Spots, Light Assist, LED headlights, fog lights, and tail lights, KESSY GO (for keyless switching on and off of the engine), leather steering wheel, umbrella box (including umbrella), Climatronic dual-zone air conditioning, plus more.

CO ₂ emissions WLTP g/km) – combined	138.8–153.7 (143.4–160.9)	154.7–166.1	186.2–196.9	126.9–140.4 (130.1–143.7)
POWER TRANSMISSION				
Type	Front-wheel drive	Front-wheel drive	4x4	Front-wheel drive
Transmission	Manual 6-speed (Automatic 7-speed DSG)	Automatic 7-speed DSG	Automatic 7-speed DSG	Manual 6-speed (Automatic 7-speed DSG)
WEIGHT				
Kerb weight – with a 75kg driver (kg)	1,479–1,696 (1,488–1,705)	1,573–1,771	1,688–1,880	1,576–1,789 (1,606–1,819)
Payload – incl. a driver and extra equipment (kg)	445–662 (447–664)	472–670	483–675	464–677 (463–676)
Total weight (kg)	2,066 (2,077)	2,168	2,288	2,178 (2,207)
Trailer load without brakes (max. kg)	730 (740)	750	750	750
Trailer load with brakes – 12% (max. kg)	1,600	1,800	2,200	2,000

WLTP – World harmonized light-duty vehicles test procedure.
The weights depend on the equipment version of the car.
() Applies to the version with automatic transmission.

The diesel engines use Selective Catalytic Reduction. This system injects AdBlue® to reduce mono-nitrogen oxides (NOx). The volume of the AdBlue® tank is 16 l and consumption depends on the driving style.

2.0 TDI/147 kW	2.0 TDI/147 kW 4x4
Turbocharged diesel engine	Turbocharged diesel engine
4/1,968	4/1,968

2,000	2,200

Technical specifications do not apply for Scout cars. For Laurin & Klement and SportLine cars, some specifications may differ.
Specifications may also differ depending on the engine and chassis configuration. For more information, contact your ŠKODA partner.

TECHNICAL SPECIFICATIONS SUPERB COMBI iV	1.4 TSI/EL/160 kW PHEV
	Turbocharged petrol engine/electric engine
ENGINE	
Cylinders/Cubic capacity (cc)	4/1,395
Max. performance/Revs (kW/rpm)	115/5,000–6,000, el. 86, Σ160
Max. torque/Revs (Nm/rpm)	250/1,550–3,500, el. 330, Σ400
Air pollution regulation/Fuel	EU6AP/Petrol, RON min. 95
PERFORMANCE	
Maximum speed (km/h)	225
Acceleration 0–100 km/h (s)	7.5
Fuel consumption WLTP (l/100 km) – combined	1.1–1.4
CO ₂ emissions WLTP (g/km) – combined	25.1–32.0
Electric consumption WLTP (kWh/100 km) – combined	14.7–16.2
Pure electric range WLTP (km) – combined	55.1–61.4
CHARGING	
AC 2.3 kW	100% SoC 5 h
AC 3.6 kW	100% SoC 3.33 h
POWER TRANSMISSION	
Type	Front-wheel drive
Transmission	Automatic 6-speed DSG
WEIGHT	
Kerb weight – with 75 kg driver (kg)	1,768–1,929
Payload – incl. driver and extra equipment (kg)	406–567
Total weight (kg)	2,260
Trailer load without brakes (max. kg)	750
Trailer load with brakes – 12% (max. kg)	1,600

Figures for hybrid vehicles were obtained using a combination of battery power and fuel according to WLTP technical procedures. Figures shown are for comparability purposes; only compare fuel consumption, CO₂ and electric range figures with other vehicles tested to the same technical procedures. These figures may differ from real life driving results, which will depend upon a number of factors including the accessories fitted (post-registration), variations in weather, driving styles and vehicle load.

FURTHER SPECIFICATIONS	
Body	
Type	5-seater, 5-door, 2-compartment
Turning circle diameter (m)	11.7
Chassis	
Front axle	McPherson suspension with lower triangular links and torsion stabiliser
Rear axle	Multi-element axle, with longitudinal and transverse links, with torsion stabiliser
Front brakes	Disc brakes with inner cooling and with single-piston floating calliper
Rear brakes	Disc brakes
Clearance (mm) – according to engine version	150; 147; 139; 136; iV: 138
Luggage storage space – without spare tyre	
With rear seat backrests – upright/down (max. l)	660/1,950; iV: 510/1,800
Tank capacity (l)	66; iV: 50 + 13 kWh (10.4 netto)
