# LIVE LIKE YOU

Live wisely, live healthily, live happily, live together, live life. We are often told how to live. And for all those who don't want to listen anymore, there is now something to see: the ŠKODA OCTAVIA. But not only because of its very impressive new design. The OCTAVIA is a car for everything that comes into your head – or doesn't. Be it children, hobbies, style, speed or even cosiness. Equipped with lots of space, the latest technology and safety assistants as well as lots of clever ideas, you can concentrate on what counts the most – to live like you.

That's Simply Clever. That's ŠKODA.

# EXTERIOR DESIGN

# EMOTIONS IN MOTION

The OCTAVIA embodies the design trend of the ŠKODA brand: a fusion of aesthetics, safety and practicality. Whether you see the car as a whole or step closer and explore its unique features, the OCTAVIA radiates with the harmony of functionality and emotion.

**ŠKODA BRAND**  
As a badge of honour, the ŠKODA name proudly embraces the 5th door.

**STYLE AND FUNCTIONALITY**  
The car features dynamic lines, balanced proportions and distinctive features such as the front grille and headlights in the shape of an arrow. The fog lights are also unmistakable. In addition to their utility functions, they play a key design role.

#### **PANORAMIC SUNROOF**

Let more light and fresh air in. The electrically-adjustable panoramic sunroof of the combi version, made from tinted glass, allows you to create a large open space above the front seats.

#### **ROOF RAILINGS**

The car features roof railings that stick close to the roof and follow its clear aerodynamic shape.

# TIME TO SHINE

Advanced technology is made beautiful in the light design of the OCTAVIA. The top-end option comes with full LED Matrix headlights, which offer greater road lighting and a higher degree of safety.

## HEADLIGHTS AND FOG LIGHTS

In exterior lights, the unique ŠKODA Crystal design is combined with an innovative solution. The top-end option comes with matrix technology.

Using a windscreen camera, the full LED Matrix headlights can detect a car in front of you or in oncoming traffic. Based on this, the high beam adjusts itself incrementally. This ensures you get the best view without blinding other drivers.

The headlights also feature a low beam function (Adaptive Frontlight System modes) created by a projection module in combination with a side light reflector. The system adapts the lighting to the steering wheel position. The excellent functionality of the fog lights is powered by LED technology.

## TAIL LIGHTS

The full LED tail lights are fitted with animated turn indicators, which not only reveal where the driver is about to turn, but also add dynamism to the car. The tail lights also feature decorative elements, which reference the Czech crystal glass-making tradition.

# INTERIOR DESIGN

## WELCOME HOME

The interior welcomes you with a perfect harmony of materials and colours. The dashboard refers to the car's exterior lines and emphasises the feeling of generous space. The infotainment display positioned high up on the dashboard, in the driver's immediate field of view, creates a pleasant symmetry. The attractive décor, chrome details and LED ambient lighting enhance the powerful impression.

#### STYLE AND FUNCTIONALITY

The car features a 2-spoke steering wheel. The top-end option comes with multifunctional leather steering wheel, which not only allows you to control the radio, phone and DSG, but also offers a heating function.

#### COMFORT AND SPACE

ŠKODA's craftsmanship is confidently presented inside. Surrounded by high-quality materials, you'll enjoy the ride no matter where you sit. The exceptionally spacious interior offers lots of legroom and headroom for the whole crew.

**CONNECTIVITY**

# ŠKODA CONNECT: TAKE THE ONLINE WORLD WITH YOU

Stay connected wherever you are. Being fully and permanently online means always having access to entertainment, information, and possible assistance while on the move. ŠKODA Connect is your gateway to a world of unlimited communication options.

## MyŠKODA

Access all the necessary features of your vehicle anywhere and anytime using your smartphone. MyŠKODA is a mobile application that allows you to use ŠKODA Connect online services. It also allows you to connect your vehicle via the SmartLink interface and offers other digital services such as vehicle manuals or market-specific features.

## ONLINE PERSONALISATION

You will appreciate this service especially if your car is driven by multiple users. Set your comfortable seat position, digital dashboard layout, or air conditioning parameters – the settings will be synchronised with your ŠKODA ID account. So, the next time you log into your car after it has been driven by someone else, you can comfortably set off with your preferred settings enabled. With online personalisation, you can set your preferred settings not only in your car, but in any ŠKODA vehicle that supports this.

## ONLINE TRAFFIC INFORMATION

With Online Traffic Information, you always get up-to-date information, saving you time and the stress of sitting in traffic jams. If enabled, the navigation system will automatically recalculate the route to arrive at the destination just in time.

# ADDITIONAL CONNECTIVITY OPTIONS

Discover additional options and features. For example, with Laura, a digital voice assistant is available in your car. With the SmartLink feature, supporting Apple CarPlay and Android Auto, the car's infotainment system allows you to use your phone safely while driving. You can also enhance the in-car connectivity with additional Infotainment apps such as Weather, News, Digital manual, Traffication, and many more.

## FUNCTIONS ON DEMAND

Functions on Demand technology allows you to purchase and activate vehicle and infotainment functions after vehicle production. This means you can change your mind about which functions you want to use in the vehicle, even after you bought it. In addition, you can upgrade functions if you have purchased a used vehicle. The available features include smart navigation, additional colours (20) and functions for ambient lighting, plus more.

## LAURA DIGITAL VOICE ASSISTANT

This online-based voice control system understands fluent sentences. Say the destination with natural voice input, dictate text messages, or even ask her to tell you a joke. The online part of Laura is ready for anything. To start fulfilling your wishes, simply contact her by saying "Okay, Laura!"

## TRAFFICATION

The Traffication app increases your safety by providing traffic-related warnings from the vicinity of the vehicle. Running in the background, it alerts you if you are attempting to drive the wrong way down a road. Notifications are also shown in the event that hazard lights are activated in the radius of your vehicle.

**SIMPLY  
CLEVER**

# GENIUS IS IN THE DETAILS

Simply Clever solutions make your life easier. Whether it's practical storage compartments or an ingenious towbar, these thoughtful features take the headache out of travelling.

## WELCOME LOGO

The LEDs located on the underside of the front doors, creating the ŠKODA inscription, illuminate the entry area.

## SUNGLASSES COMPARTMENT

This practical compartment located above the interior rear-view mirror is within the driver's and front passenger's reach. (Not available in combination with panoramic sunroof.)

## PROTECTIVE WINDOW STRIPS

The protective window strips effectively prevent dirt building up in the space between the windscreen and body of the car.

#### ADBLUE TANK FOR DIESEL ENGINE

Thanks to the tank neck size, you can use any AdBlue nozzle at the petrol station.

#### LIQUID RESERVOIR

You will never spill a single drop when refilling the washer fluid. The liquid reservoir is not only easily accessible, but also has an integrated funnel.

#### DOUBLE POCKET

Organise your things even better with double pockets on the back of the front seats. Hide your notebook or laptop into the bigger pocket and your mobile phone into the smaller one.

#### JUMBO BOX AND DRINK HOLDERS

Small electronic devices can be safely stored in the Jumbo box in the front armrest. And when the air conditioning is on, you can even cool your snacks. For your drinks, there are drink holders with Easy Open function on the centre console.

#### FRONT DOOR COMPARTMENTS

You will find a 1.5 l bottle holder in a spacious compartment in the front door. This is also where you can place a removable waste basket.

#### REMOTE FOLDING SEATS

The rear seats can be folded using a remote release button located in the luggage compartment, which will make loading the car even more effortless.

#### FLEXIBLE ORGANISER

The aluminium flexible organiser (exclusively for the combi version with a double floor) enables you to split the space according to your needs and makes it easier to keep things neat and tidy.

#### TOWING DEVICE

The car has a foldable towing device with electric release. The switch is in the luggage compartment.

#### CARGO ELEMENTS

To avoid any undesired movement of luggage while driving, these two plastic cargo elements with a Velcro fastener are ideal. They can be stowed away in the compartments behind the rear wheel arches when not in use.

# LUGGAGE COMPARTMENT

# XXLUGGAGE COMPARTMENT

Your XXL attitude requires XXL capacity. But it wouldn't be a true ŠKODA if it wasn't accompanied by XXL practicality. You can find many smart features inside the OCTAVIA's boot, which will help you load all your stuff, keep the car tidy and prevent things from moving around.

## NET PROGRAMME - PARTITION

Thanks to the partition, the side vertical net will always be open, so you have easy access to transported items. You will also appreciate this feature when transporting flowers, for example. (Available also for the liftback version.)

## DOUBLE FLOOR

The double floor (exclusively for the combi version) provides easier luggage handling or a discrete storage place, with the bottom of the luggage compartment positioned at loading edge level.

## CAPACITY

As always, the luggage compartment is generous. The combi version offers 640 litres and 1,700 litres after folding down the rear seats.

**CAPACITY**

The luggage compartment of the liftback version with a basic volume of 600 litres can be extended up to 1,555 litres by folding the rear seats down.

**NET PROGRAMME**

The set including one horizontal and two vertical nets will reliably prevent your things moving around. Plus you will clearly see where you put everything. (Available also for the combi version.)

**DOUBLE-SIDED CARPET**

You can use the carpet with the elegant fabric side up when not transporting anything that might make your car dirty and can easily turn it over to utilise the washable rubber side when required.

**COMFORT**

# HIGH-TECH, HIGH COMFORT

Sometimes it's good to let yourself be spoiled. While driving, for example. Plenty of thoughtful technologies and smart features are here at your command, ready to maximise your comfort and driving pleasure. Just put your foot down.

## ELECTRICALLY-CONTROLLED 5TH DOOR WITH VIRTUAL PEDAL / AUTOMATIC COVER

The electrically-controlled 5th door comes exclusively with a virtual pedal enabling contact-free access. It can also be opened and closed at the mere touch of the button on the remote control, central panel, and directly on the 5th door. You can adjust the upper door position to suit your needs. In the combi version (not shown), the electrically-controlled 5th door can be accompanied with an optional automatic retractable cover.

When the 5th door is opened, the cover retracts automatically – providing easier access to the luggage compartment.

## MULTIMEDIA 10" DISPLAY

Attractive design is accompanied by perfect functionality. The multimedia 10" display enables touch slider operation, where you don't need to touch the screen while adjusting the volume or zooming the navigation. Below the display, it also provides an ergonomic wrist rest when operating the screen.

## COLUMBUS 10" INFOTAINMENT

The top-class Columbus infotainment with 3D navigation system can provide a different zoom for infotainment display and for the Virtual Cockpit, which is a great tool for displaying maps, for example. In addition to the touch or gesture control, you can operate the device via Laura, the digital assistant. This new enhanced and online-based voice control system can answer queries about a wide variety of topics and follows commands. For example, it will start navigation to a desired destination, find a favourite piece of music or take dictation for an SMS. The Web radio feature, which also comes as a bundle in combination with the Columbus infotainment system, allows you to expand the usual portfolio of conventional stations with your other favourite channels, podcasts, and news. You can tune in and listen in high quality to any radio streaming service in an area covered by the Internet. The DAB (Digital Audio Broadcast) function is also available via the Columbus infotainment system.

## AMBIENT LIGHTING

Experience ultimate comfort thanks to the interior lights. LED ambient lighting, which can offer you many amazing colour options, includes lights running along the inside of the car, foot area illumination front and rear, door handle lighting front and rear, and luggage compartment lighting.

## CANTON SOUND SYSTEM

Enjoy absolute sound clarity, whether it's music or the spoken word, from the Canton Sound System with twelve speakers, including a central speaker and subwoofer in the luggage compartment. The total power output is 675 Watts.

## SHIFT BY WIRE

The OCTAVIA comes with "by wire" technology designed for maximum comfort in vehicles equipped with automatic transmission. The DSG shift by wire is controlled by a shift lever in a minimalist design integrated in the centre console.

**VIRTUAL COCKPIT / HEAD-UP DISPLAY**

The Virtual Cockpit can display onboard computer specifications in combination with other information such as navigation, for example. The head-up display shows the driving data in such a way that the driver's eyes don't have to refocus, thereby significantly reducing the possibility of distraction.

**AREA VIEW**

You will feel much more confident behind the steering wheel with four cameras that sense the space around the entire vehicle. They are located in the front grill, external side-view mirrors and on the handle of the 5th door. The picture is transmitted in real time to the infotainment display so you can react quicker to whatever comes your way.

## ERGO FRONT SEATS

Maximum comfort for the driver and front passenger is ensured by the electrically-adjustable Ergo front seats which also feature (among other functions) cushion depth adjustment.\*

## ROLLER BLINDS

Mechanical roller blinds for the rear side windows, plus for the 5th door glass in the liftback version, significantly increase passenger comfort in the rear seats on sunny days.

## SLEEP PACKAGE

Rear passengers will sleep sweetly through a long journey thanks to the Sleep Package (exclusively for the combi version). It includes variable headrests for the outer seats for a comfortably supported head posture while sleeping, roller blinds for the rear side windows, SunSet lamination and one blanket elegantly wrapped in a grey case.

## MASSAGE FUNCTION

The electrically-adjustable Ergo front seats can also offer massage function. This superior level of comfort is always accompanied by front seat ventilation and heating functions as well as upholstery in perforated leather.

\* Ergo seats come exclusively with middle airbag.

### PANORAMIC SUNROOF CONTROL / USB

Open or close the panoramic sunroof easily by touching the control in the roof panel above your head. Here you can also find an additional USB-C slot which is ideal for charging devices mounted on the windscreen.

### READING LIGHTS WITH INTENSITY CONTROL

You can easily adjust the light intensity by holding your hand under the reading lights.

### PHONE BOX / USB

The phone box creates an amplified signal for your mobile device and, at the same time wirelessly charges your phone while driving. This compartment is not only easily accessible but is also suitable for large display devices. Two USB-C data ports located in the centre console allow you to easily connect and pair your external devices with the infotainment system, without any need for dongles or adapters.

### AIR CARE AND AIR QUALITY SENSOR

The Climatronic air conditioning features a smart Air Care function and Air Quality Sensor that contribute to cleaner air in the vehicle. Air Care can clean dust from the interior and must be activated by the driver via the Climatronic menu. The Air Quality Sensor, which detects excessive air pollution, responds automatically by switching to internal air circulation mode, taking into account the possibility of the window fogging up. This function needs to be activated only once in the infotainment system.

### COMFORT IN THE BACK

On the rear part of the Jumbo Box you will find two USB-C slots, enabling mobile phone charging. In the car equipped with 3-zone Climatronic air conditioning, you will also find the control for the rear seat zone here.

### KESSY

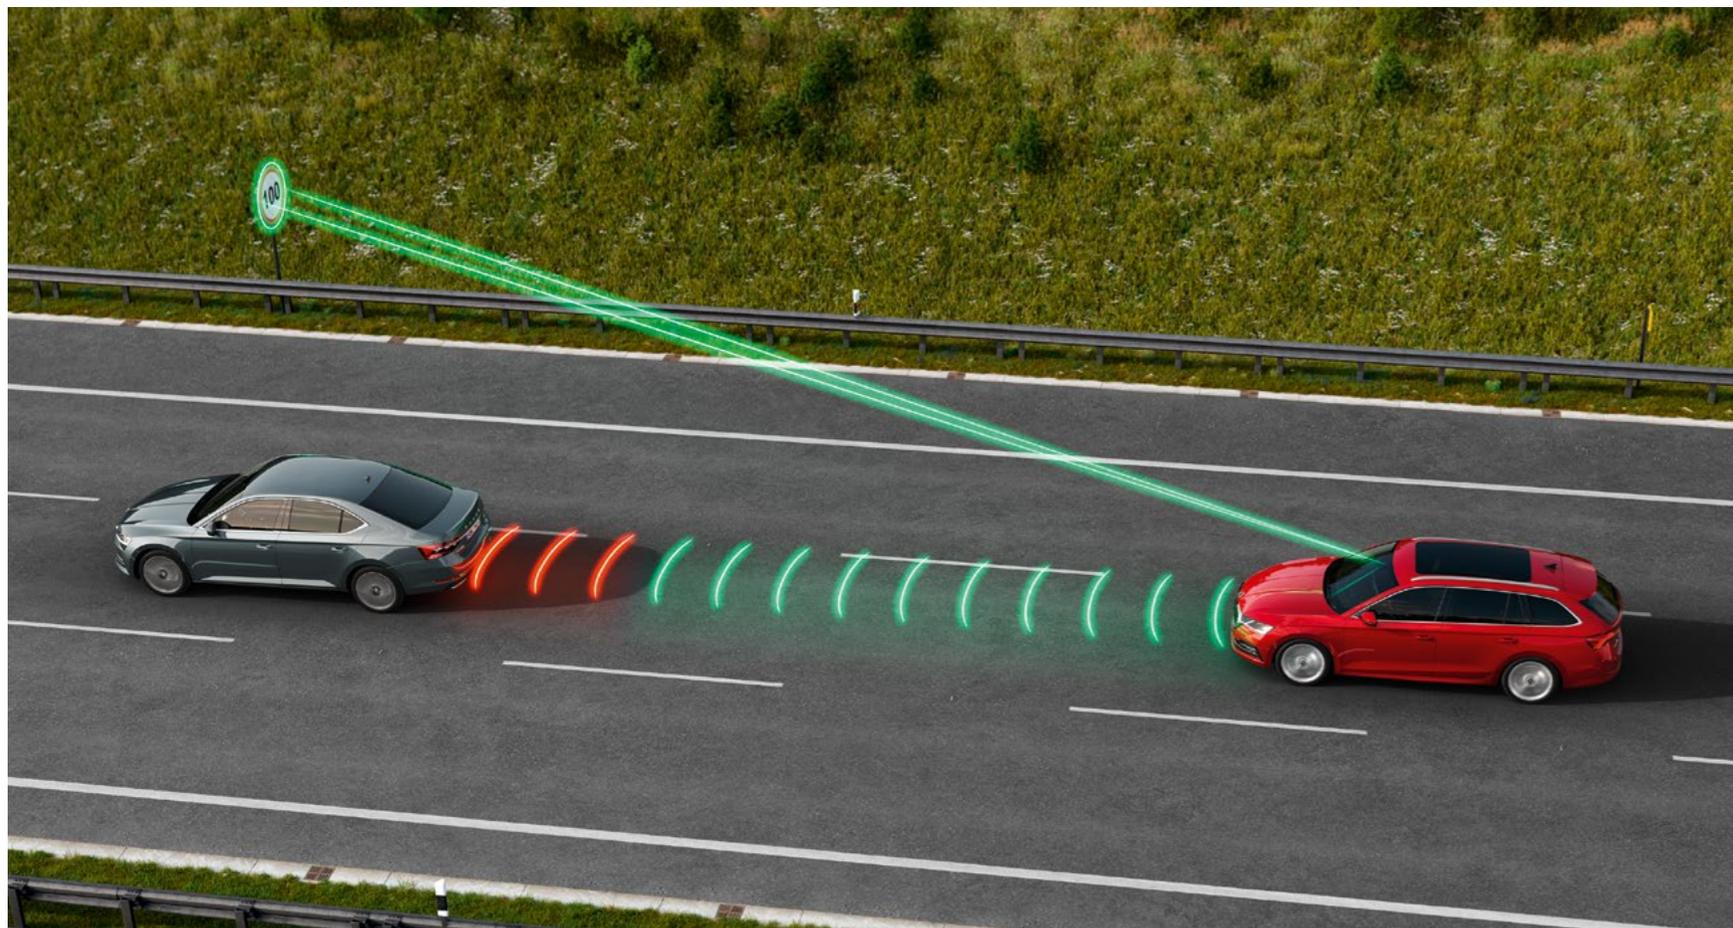

With the advanced version of KESSY (Keyless Entry, Start and Exit System), which comes with the OCTAVIA model, all doors can be used to unlock or lock the car. The system is now enhanced by a new feature. When approaching the car at a distance of about 8 m (with the key in your pocket or bag), the system establishes communication with the key. At a distance of about 1.5 m, the system automatically unlocks the car without you touching the handle. If you do not open the door afterwards, the system will lock the car again.

**SAFETY**

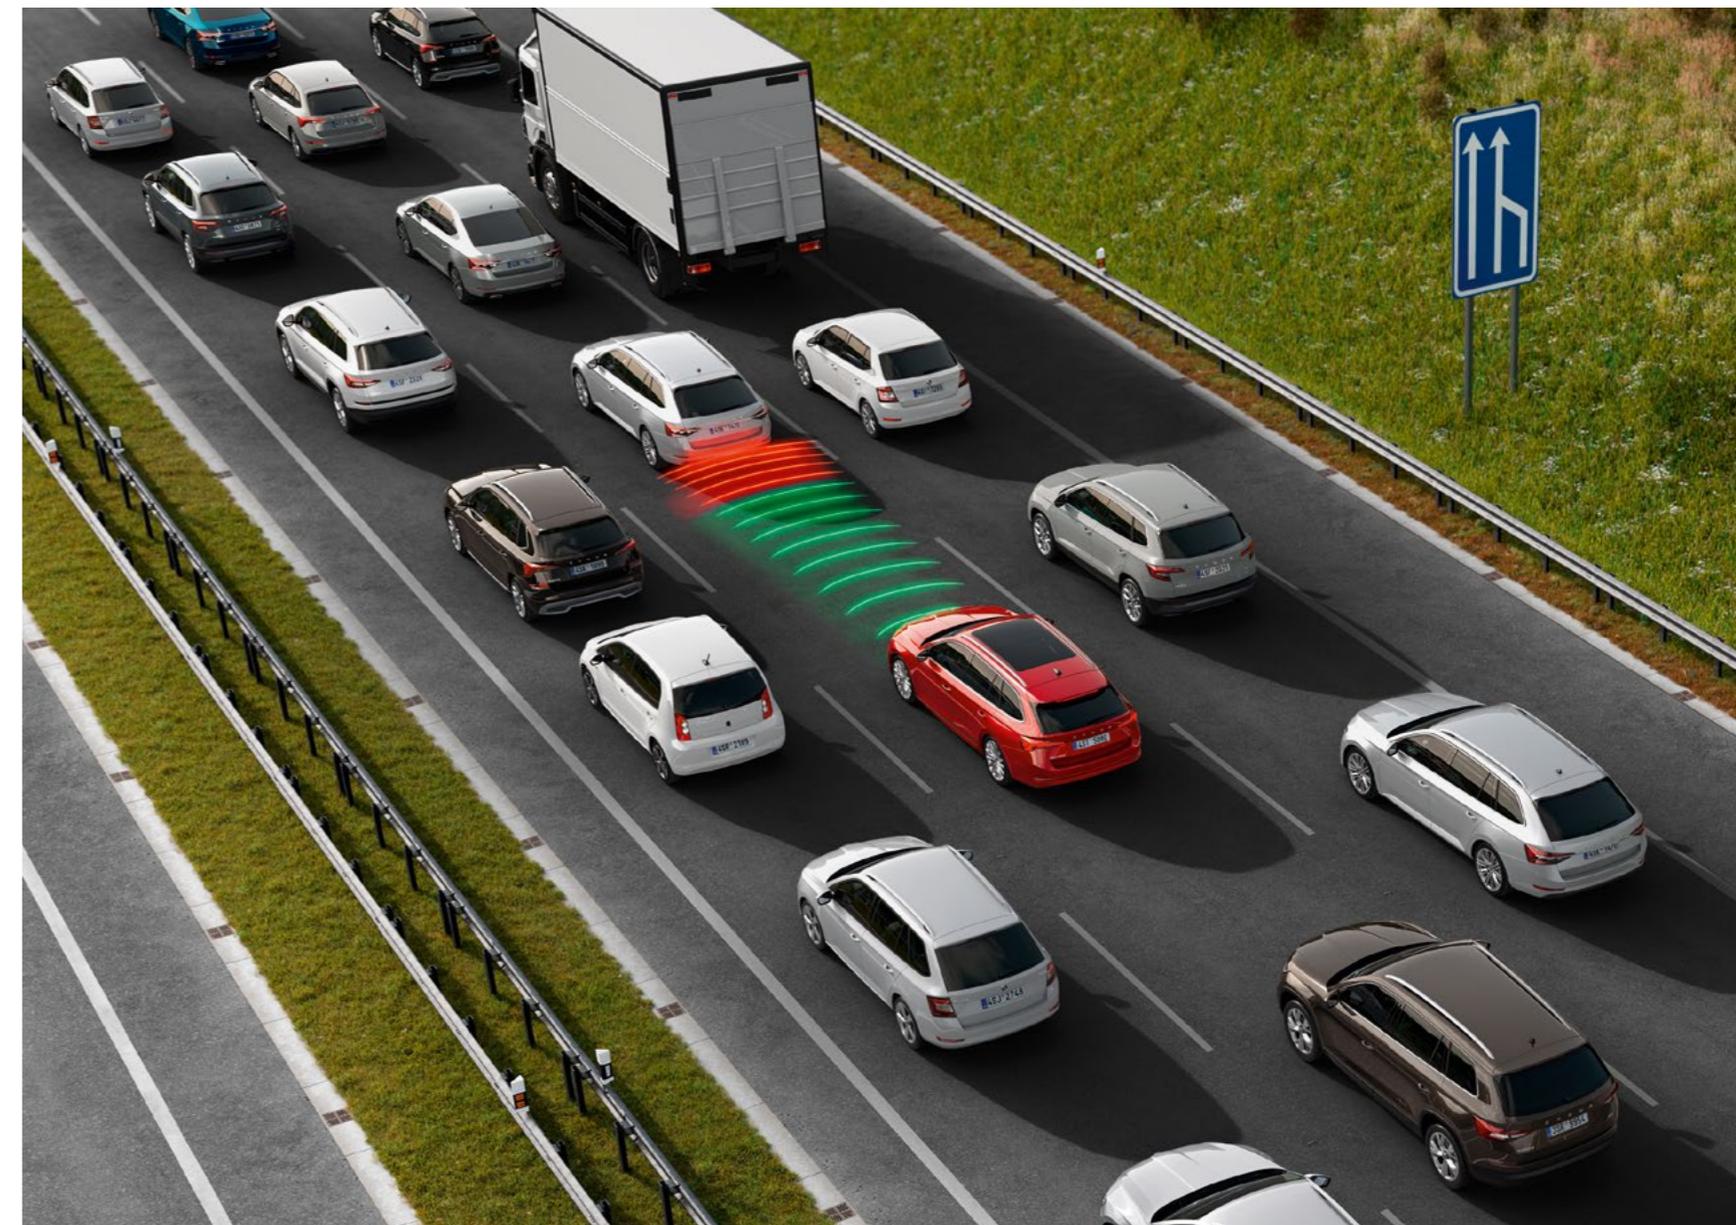

# TRAVEL ASSIST

The Travel Assist system as well as its higher version combine the functions of several assistants and ensure that you feel safe and comfortable, no matter where you drive. For maximum safety, the system must be constantly monitored by the driver. That's why a capacitive steering wheel detects the driver's tactility, providing an interactive interface to the system. If the driver is not engaged in driving, this behaviour is detected by the capacitive steering wheel.

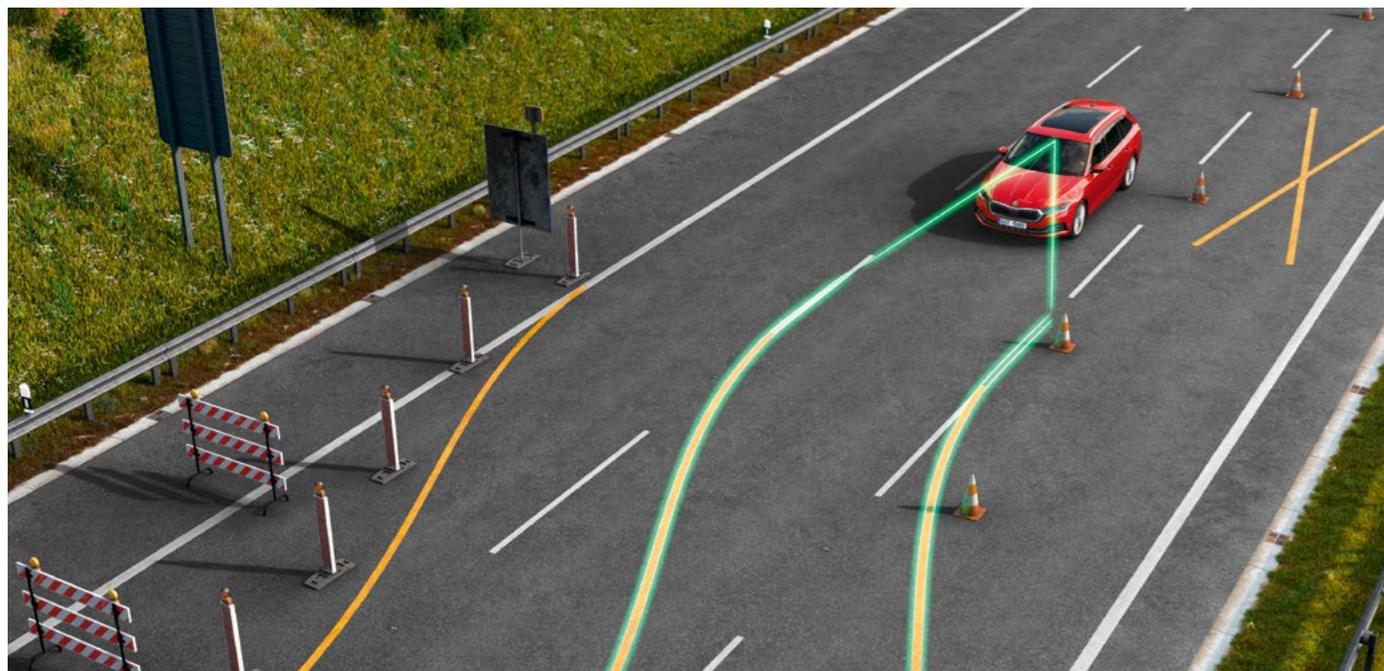

## PREDICTIVE ADAPTIVE CRUISE CONTROL

Using a radar device, camera equipped with traffic sign recognition, GPS technology and detailed information from the road map, pACC can predict driving conditions for the next 1–2 km. As a result, the system can automatically adjust the cruise speed when necessary – typically before a turn or roundabout, or when entering an area with a reduced speed limit. The system increases driver comfort and driver safety while also reducing fuel consumption and CO<sub>2</sub> emissions.

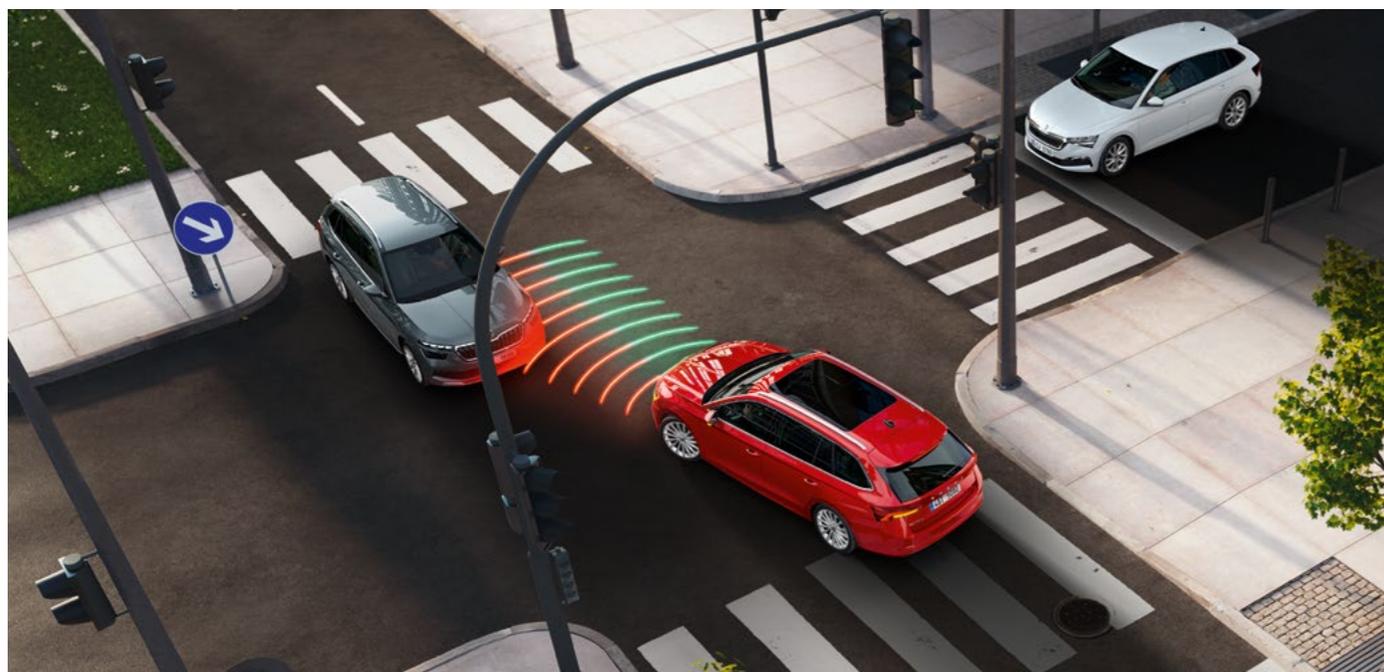

## TRAFFIC JAM ASSIST / FOLLOW DRIVE

This function is designed to facilitate driving in traffic jams. By controlling the engine, brakes, and steering, it makes the vehicle pull away, brake, and turn to copy the movement of the surrounding vehicles (at speeds of up to 60 km/h). If lanes are not detected at speeds of up to 30 km/h, or only one lane (line) is detected at speeds of up to 60 km/h, the Follow Drive system follows the trajectory of the vehicle in front of you until lane markings are available again.

#### ADAPTIVE LANE ASSIST

The system is capable of keeping the car in the middle of the correct lane and of alerting the driver in case of deviation. It can also take control of the car in the event of lane changes during roadworks.

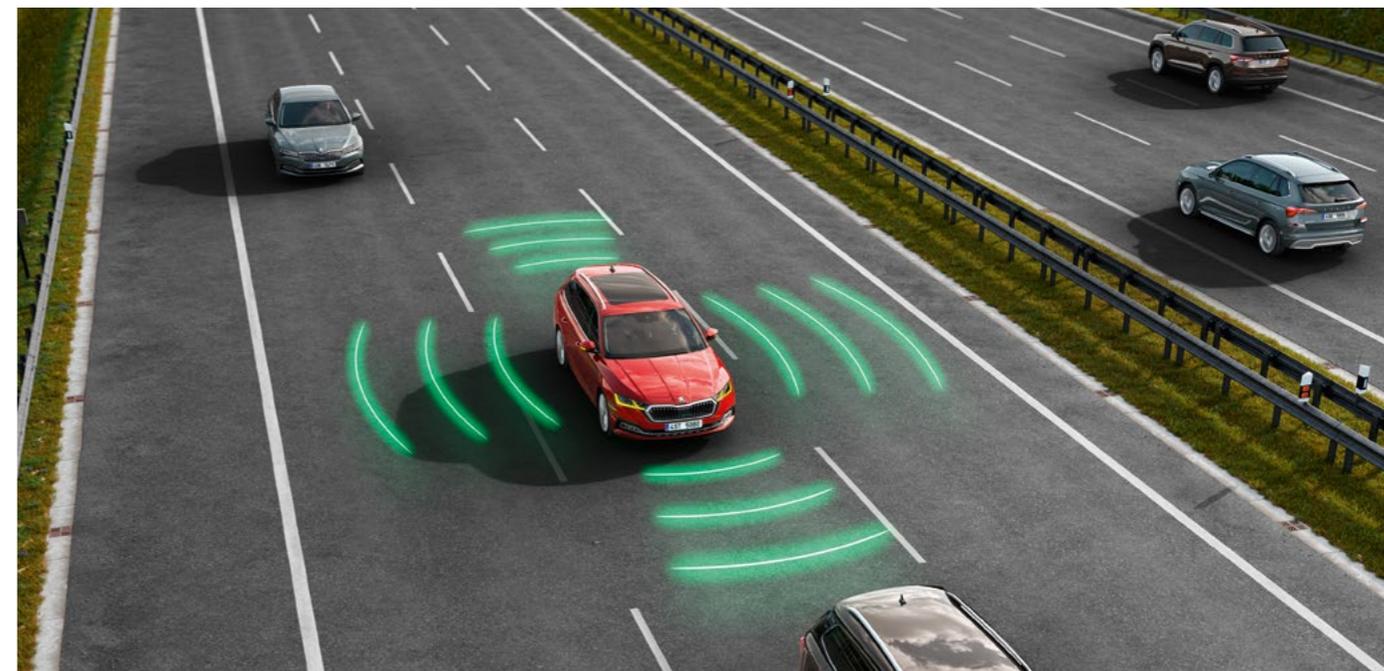

#### TURN ASSIST / COLLISION AVOIDANCE ASSIST

The Turn Assist monitors opposing traffic when turning left at low speeds between 2–15 km/h. In critical situations, it can stop the vehicle and turns on the warning lights. The Collision Avoidance Assist supports the driver by actively increasing the steering moment in the event of an impending collision with a pedestrian, cyclist, or another vehicle – ideally preventing the accident with a controlled evasive manoeuvre.

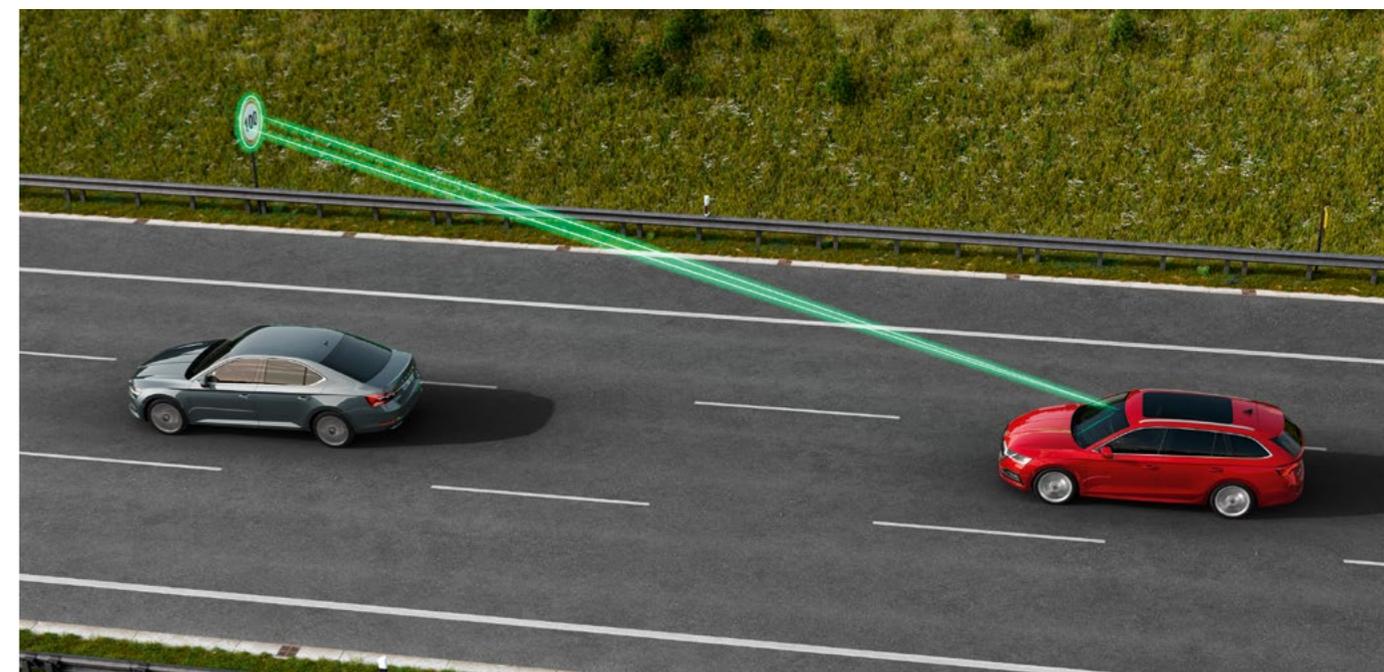

#### EMERGENCY ASSIST

Emergency Assist reduces the risk of an incident in the event of the driver's sudden health collapse, for example, by safely stopping the car and turning on the warning lights.

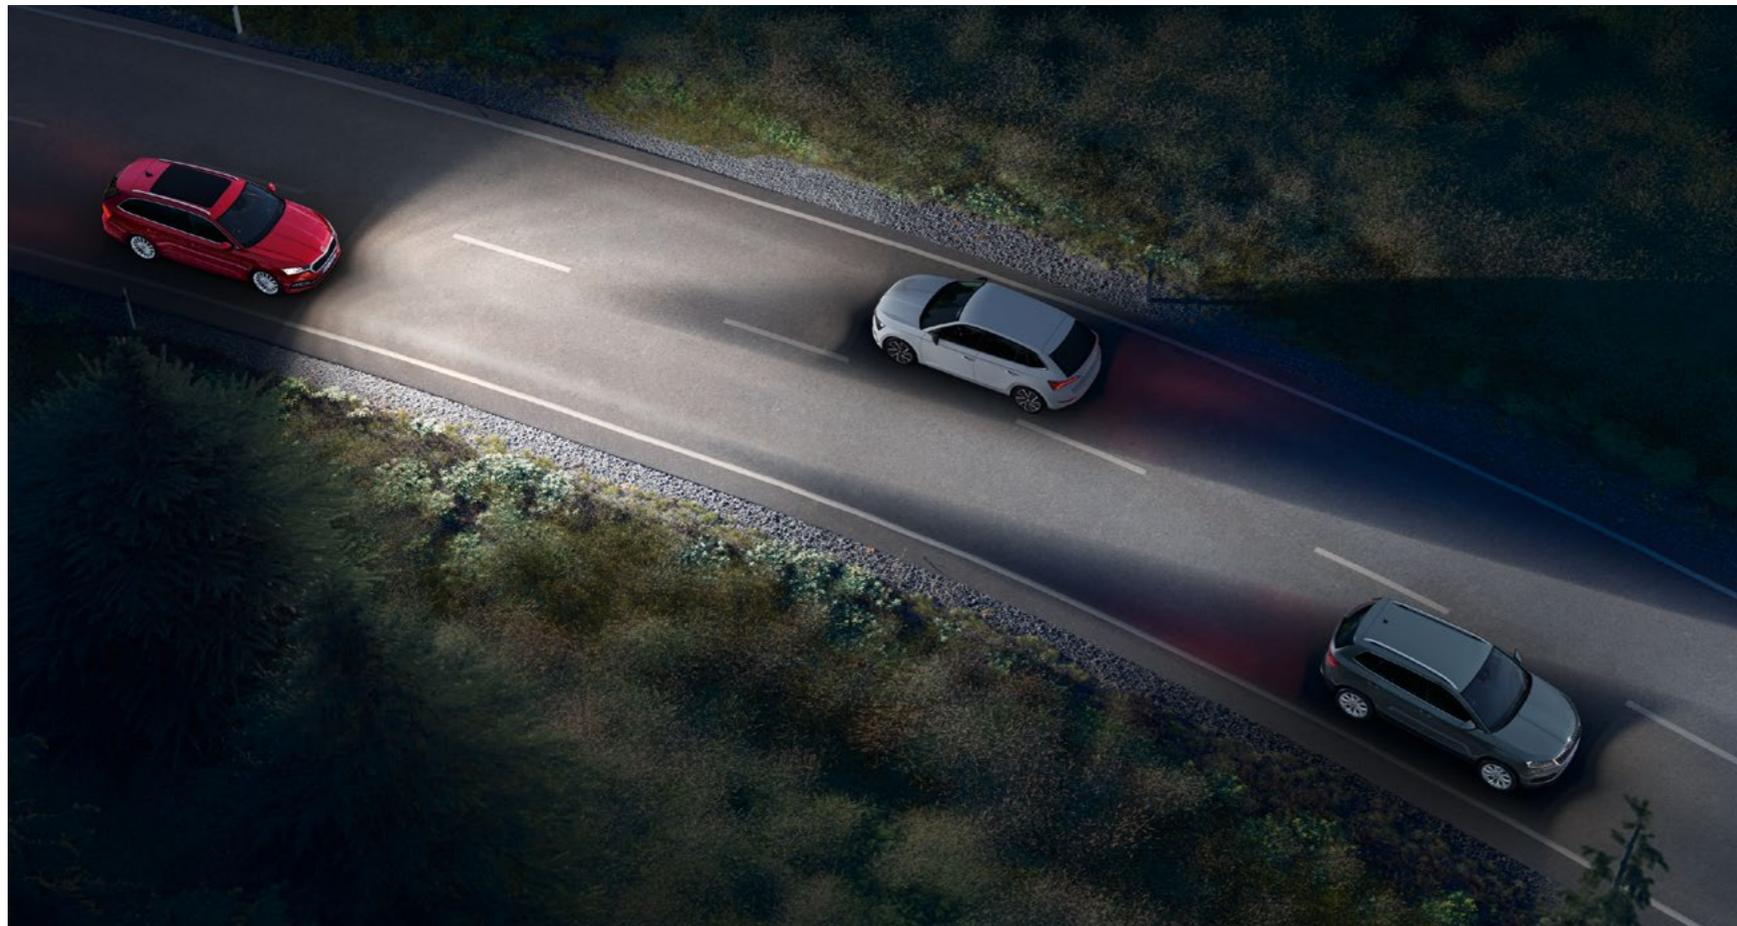

#### TRAFFIC SIGN RECOGNITION

The system uses the camera in the rear-view mirror to scan the traffic signs on the current stretch of road and notify the driver of traffic signs. The system is able to identify signs on both the left and right sides, as well as above the road. Moreover, it is able to identify variable traffic signs too (electronic information boards).

# ADDITIONAL EXPERTS ON BOARD

You can encounter various things on the road. To ensure that the car is ready to handle all situations that may occur en route, additional assistants with multiple functions are on hand to help or fill in for the driver.

## MATRIX BEAM FUNCTION

The full LED Matrix headlights feature matrix beam function. This allows you to use the high beams continuously, without blinding other drivers. Using a windscreen camera, the matrix beam function responds to the traffic situation and turns off only some segments of the light. Other segments are turned on and illuminate the road. The matrix beam function also uses information from the navigation system. Thanks to it, the high beams will only turn on when you are out of a built-up area.

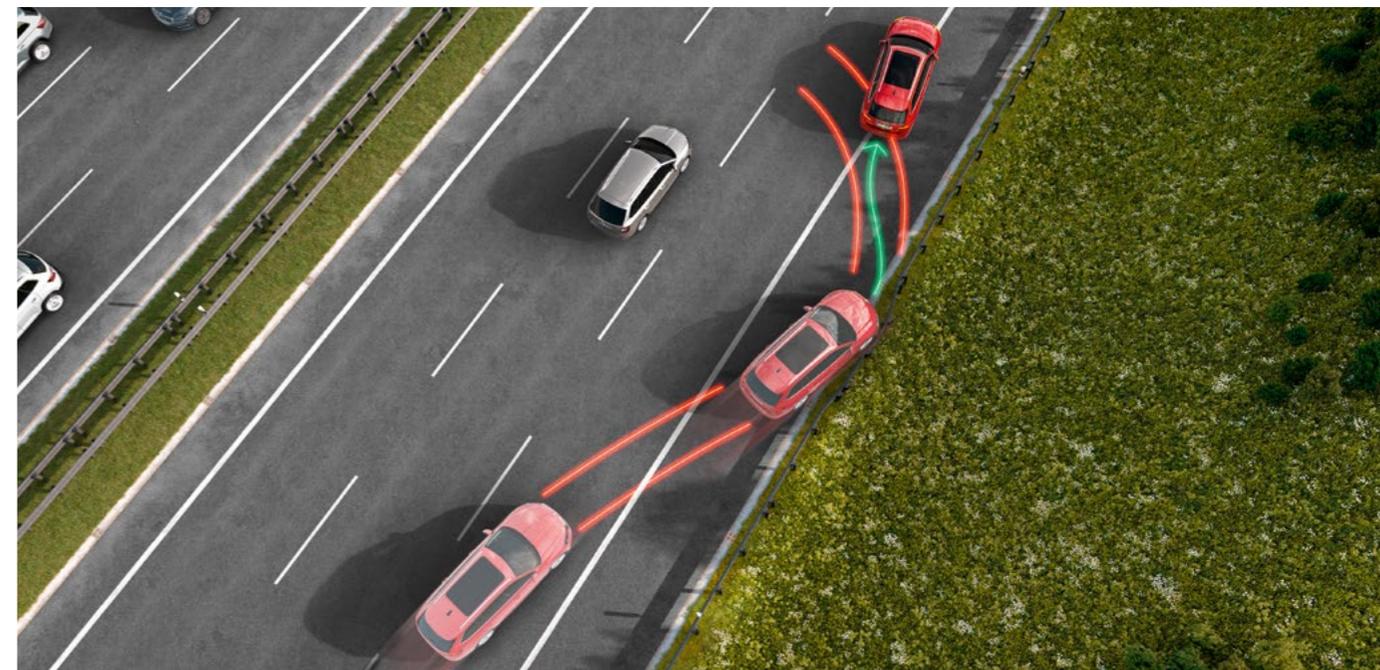

## CREW PROTECT ASSIST

This assistance system provides increased protection for front-seat passengers in critical situations that could lead to a crash or overturning by closing the side windows to leave only a 5 cm gap, shutting the roof window, and tightening seatbelts.

## MULTI-COLLISION BRAKE

In case of an accident, the Multi-Collision Brake starts braking to prevent further uncontrolled movement of the vehicle, thus reducing the likelihood of further collisions.

iv

## POWER UP YOUR POSSIBILITIES

The ŠKODA OCTAVIA iV offers the dynamism and efficiency of an electric engine for day to day urban driving and a 1.4 TSI engine for any trips outside the city. Always equipped with the Virtual Cockpit, the car can satisfy even the most diverse demands on exterior appearance, interior comfort, technology and connectivity, available in Ambition, Style and even in a unique RS and SportLine versions. Choose the one that fits you and relax into your seat.

# INNOVATIVE FROM THE INSIDE OUT

## ENGINES AND CHARGING

The 1.4 TSI petrol engine offers 110 kW, the electric motor generates 80 kW and the full system power is 150 kW. During a purely electrical drive, the eSound acoustic system is activated, alerting pedestrians that a car is coming. The system is operating both when driving forward (at speeds of up to 25 km/h) and when reversing (up to 10 km/h). The battery with a capacity of 13 kWh is located under the floor in the back of the car and powers you for an approximately 60 km drive. When charging at home and connected to a conventional electrical grid, the battery (if completely empty) will be fully recharged within five hours. The charging time can be shortened to three hours and thirty-three minutes with a wallbox or at a charging station that supports fast charging.

## INFOTAINMENT

The 10" Infotainment (Columbus navigation system shown) allows you to check the battery status, set up a purely electrical drive, or choose a drive with full system power, for example.

# G-TEC

# NATURE WILL WELCOME IT. SO WILL YOUR WALLET

The OCTAVIA also comes with a greener engine version. Driven by compressed natural gas, the ŠKODA OCTAVIA G-TEC (available in Active, Ambition and Style equipment level) is not only eco- and budget-friendly. It also offers a quieter and smoother engine. Don't compromise between the environment and performance.

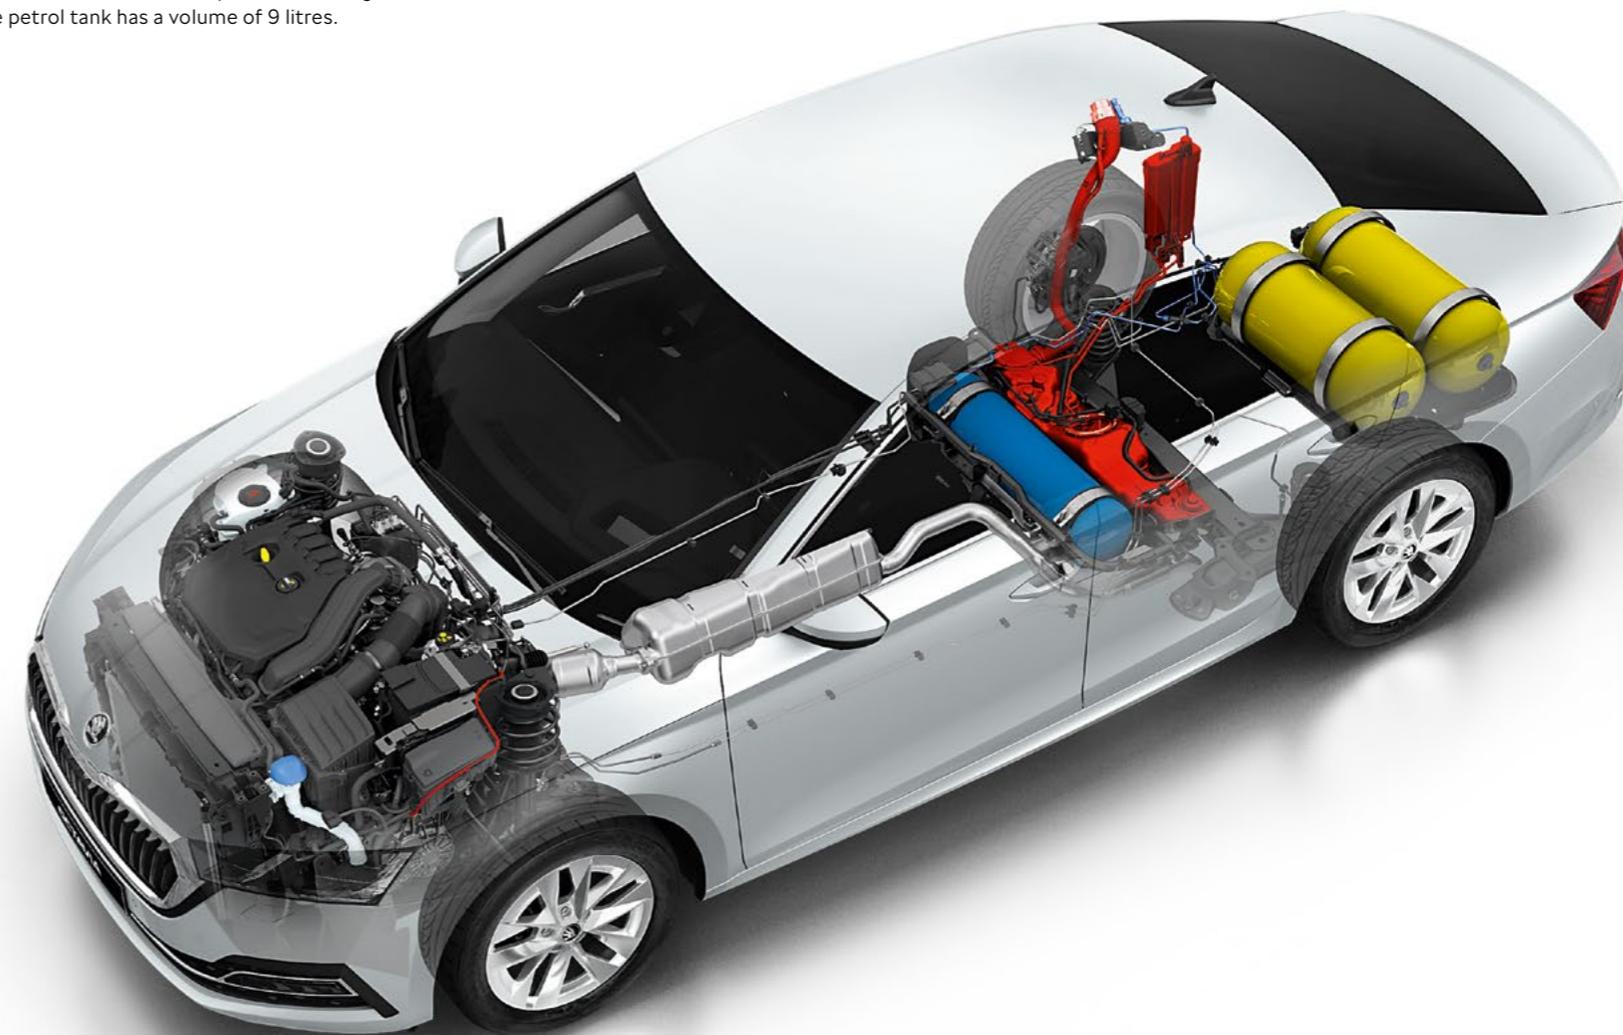

## CNG AND PETROL SWITCHING

Switching between the two fuel systems is automatic. The engine is started using CNG and then continues in CNG mode. Should the CNG run out, the car will automatically switch to petrol mode.

## ENGINE AND TANKS

The car comes with an agile 1.5 TGI/96 kW G-TEC engine in combination with manual 6-speed transmission or an automatic 7-speed DSG. In CNG mode (compared to running on petrol), CO<sub>2</sub> emissions are reduced. The car's environmental friendliness is also declared by lower emissions of nitrogen oxides (NO<sub>x</sub>) and no solid particles. Three CNG tanks can carry about 17.33 kg of fuel, while the petrol tank has a volume of 9 litres.

RS

## FOR YOUR EVERYDAY RACES

RS, those two magical letters set your heart racing. The ŠKODA OCTAVIA RS instantly pumps adrenaline into your blood. With up to 245 horsepower under the bonnet, it will be an exciting drive – not just for you. This car also offers great safety, so don't hesitate to invite all the family in. Choose between a 180 kW TSI engine, 147 kW TDI engine or an iV with a full power of 180 kW and live to the fullest every day. The OCTAVIA RS will keep pace with you.

# BOLD NEVER GOES OUT OF STYLE

Exclusive meets sporty. The OCTAVIA's emotional design sets a daring tone with its RS version, both on the outside and in. Combine the timeless elegance with specific dynamic features supported by the lower chassis and get a car with attitude.

## EXTERIOR DESIGN

The car features bumpers in RS design and glossy black elements such as exterior side-view mirror caps, strips around the side windows, front grille frame, and air curtain framing darkened fog lamps. The RS badge on the grille is a nod to the famous racing tradition of ŠKODA cars. The dynamic appearance of the exterior is enhanced by the 18" black or optional 19" anthracite (shown) alloy wheels. The red brake callipers emphasize the sporty character of the vehicle.

## INTERIOR DESIGN

The interior is equipped, among other things, with a multifunctional sports steering wheel in perforated leather with RS logo, Virtual Cockpit including Sport view (specific to the RS version), front sports seats, and pedal covers in alloy design. The upholstery in black fabric or optional Suedia/leather/leatherette upholstery (shown) always comes in combination with Suedia pad with stitching on the dashboard and Carbon décor.

**RISE TO ANY  
CHALLENGE**

# RS CHALLENGE PACKAGE

Make your OCTAVIA RS even more exceptional with the Challenge package that emphasises both the sporty exterior style and driving comfort. In its basic version, the package includes sports exhaust, 19" Altair anthracite polished alloy wheels, Dynamic Chassis Control, and Adaptive Cruise Control.

## CHALLENGE PACKAGE+

With the improved version of the package, you also get (in addition to the equipment mentioned above) Park Distance Control front and rear, Side Assist system, automatically retractable external side-view mirrors, rear-view camera, and Suedia/leather/leatherette upholstery in combination with Ergonomic sports front seats with massage function.

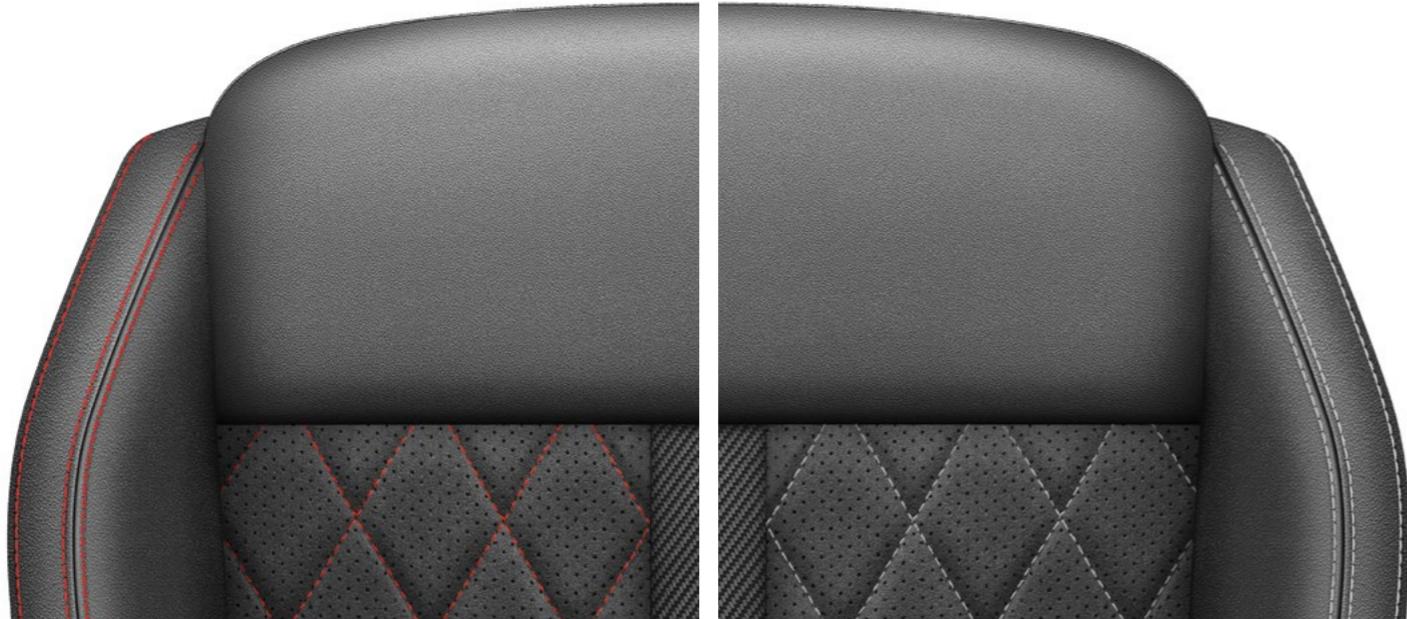

## SPORTS EXHAUST

The exhaust pipe end pieces in black finish, which accentuate the sporty look of the car, have been specially tuned to produce the engine's characteristic sporty sound. This feature is available for the 2.0 TSI engine, both as part of the Challenge package and separately.

# SPORTLINE

## GAME DAY, EVERY DAY

The ŠKODA OCTAVIA SPORTLINE is an invitation to seek the active while keeping things stylish. Dressed with sporty touches, the car offers dynamic emotion in motion. But its style isn't just skin-deep. A wide selection of engines (also including 4x4, iV, mHEV, and G-TEC versions) means you can customise your active pursuits.

#### EXTERIOR DESIGN

The car is characterised by black exterior elements, such as the front grille frame, front bumper spoiler, strips around the side windows, and exterior side-view mirror caps. The sporty look of the exterior is further underlined by the black brushed alloy wheels (17" as standard, 18" and 19" as an option). The sporty style of the liftback version is also accentuated by the black 5th door spoiler. Depending on the engine selected, the car comes with a sports chassis.

#### INTERIOR DESIGN

The interior features, among other things, front sports seats, multifunctional sports steering wheel in perforated leather with SportLine plaquette, and pedal covers in alloy design. Thanks to the specific fabric upholstery with ThermoFlux function, which ensures greater breathability, passengers can enjoy maximum comfort in all climatic conditions.

**SCOUT**

## LIFE HAPPENS OFF THE HIGHWAY

Sometimes life requires you to drive off a paved track. With the ŠKODA OCTAVIA SCOUT, you no longer need to take the bypass. This car represents a unique combination of elegance and the spaciousness of a family vehicle with an off-road character. Thanks to the rough road package, higher chassis, and body protection elements, you can hit any beckoning road no matter the dust, mud, or gravel. The car comes exclusively in the combi version.

# BUSINESS OR PLEASURE? BOTH

The car features high-quality durable upholstery and distinctive décor. You can enjoy plenty of state-of-the-art technology, assistant systems, and new generation infotainment. Whether going on a business trip, taking your family on holiday or just moving from A to B, you'll always enjoy absolute comfort and safety.

## SPORTS PEDAL COVERS / FOOT STEP

The sports pedal covers in alloy design feature rubber facets preventing your shoes from slipping. The foot step, which matches the pedal covers, emphasizes the sporty yet elegant style of the interior and increases your sense of security while driving.

## LOGO / UPHOLSTERY

The Scout logo always embroidered on the front seat backrest is a distinct interior design feature. The Suedia/leather/leatherette upholstery (shown) is optional. The fabric upholstery, which feature ThermoFlux function, comes as standard.

Suedia/leather/leatherette upholstery with red stitching  
Ergonomic sports front seats with massage function, black ceiling

## RS SUEDIA INTERIOR

Suedia pad with grey stitching, Carbon décor  
Suedia/leather/leatherette upholstery with grey stitching  
Ergonomic sports front seats with massage function, black ceiling

## RS FABRIC/SUEDIA INTERIOR

Suedia pad with red stitching, Carbon décor  
Fabric upholstery with red stitching  
Sports front seats, black ceiling

# SPORTLINE

The standard equipment of the SportLine version includes black elements (e.g. the front grille frame, window frames, front bumper spoiler, external side-view mirror caps, inscriptions on the 5th door, and rear diffuser), SunSet, door sill strips, front sports seats, sports steering wheel in perforated leather, pedal covers in alloy look, plus more.

## SPORTLINE INTERIOR

Fabric Tetris pad with stitching, Piano Black décor  
Fabric upholstery with ThermoFlux function  
Front sports seats

# SCOUT

The standard equipment of the Scout version includes protective elements (such as the add-on part on the front and rear bumper, wheel arch covers, and door sill covers), higher chassis, rough road package, pedal covers in alloy look, LED ambient lighting, plus more.

## SCOUT SUEDIA INTERIOR

Suedia pad with brown stitching, Silver Squares Haptic décor  
Suedia/leather/leatherette upholstery, Ergonomic front seats

## SCOUT SUEDIA INTERIOR

Figures for hybrid vehicles were obtained using a combination of battery power and fuel according to WLTP technical procedures. Figures shown are for comparability purposes, only compare fuel consumption, CO<sub>2</sub> and electric range figures with other vehicles tested to the same technical procedures. These figures may differ from real life driving results, which will depend upon a number of factors including the accessories fitted (post-registration), variations in weather, driving styles and vehicle load.

## FURTHER SPECIFICATIONS

<b>Body</b>	
Type	5-seater, 5-door, 2-compartment
Turning circle diameter (m)	11.1
<b>Chassis</b>	
Front axle	McPherson suspension with lower triangular links and torsion stabiliser
Rear axle	Compound link crank-axle; 4x4 and iV: multi-element axle
Front brakes	Disc brakes with inner cooling and with single-piston floating calliper
Rear brakes	Disc brakes
Clearance (mm)	143 ; 4x4: 139
<b>Luggage storage space – without spare tyre</b>	
With rear seat backrests – upright/down (max. l)	600/1,555; G-TEC: 455/1,410; iV: 450/1,405

Transmission	Automatic 6-speed DSG
<b>WEIGHT</b>	
Kerb weight – with 75 kg driver (kg)	1,695–1,782
Payload – incl. driver and extra equipment (kg)	410–490
Total weight (kg)	2,110–2,140
Trailer load without brakes (max. kg)	750
Trailer load with brakes – 12% (max. kg)	1,500

Figures for hybrid vehicles were obtained using a combination of battery power and fuel according to WLTP technical procedures. Figures shown are for comparability purposes; only compare fuel consumption, CO<sub>2</sub> and electric range figures with other vehicles tested to the same technical procedures. These figures may differ from real life driving results, which will depend upon a number of factors including the accessories fitted (post-registration), variations in weather, driving styles and vehicle load.

<b>Body</b>	
Type	5-seater, 5-door, 2-compartment
Turning circle diameter (m)	11.1
<b>Chassis</b>	
Front axle	McPherson suspension with lower triangular links and torsion stabiliser
Rear axle	Multi-element axle, with longitudinal and transverse links, with torsion stabiliser
Front brakes	Disc brakes with inner cooling and with single-piston floating calliper
Rear brakes	Disc brakes
Clearance (mm)	129; 4x4: 128; RS iV: 143
<b>Exterior dimensions (mm)</b>	
Length	4,702

Trailer load without brakes (max. kg)	750	750	750
Trailer load with brakes – 12% (max. kg)	1,600	1,600	2,000

## FURTHER SPECIFICATIONS

<b>Body</b>	
Type	5-seater, 5-door, 2-compartment
Turning circle diameter (m)	11.1
<b>Chassis</b>	
Front axle	McPherson suspension with lower triangular links and torsion stabiliser
Rear axle	Multi-element axle, with longitudinal and transverse links, with torsion stabiliser
Front brakes	Disc brakes with inner cooling and with single-piston floating calliper
Rear brakes	Disc brakes
Clearance (mm)	129; 4x4: 128; RS iV: 143
<b>Exterior dimensions (mm)</b>	
Length	4,702

WLTP – World harmonized light-duty vehicles test procedure.  
The weights depend on the equipment version of the car.  
( ) Applies to the version with automatic transmission.

The diesel engines use Selective Catalytic Reduction. This system injects AdBlue® to reduce mono-nitrogen oxides (NO<sub>x</sub>).  
The volume of the AdBlue® tank is 12 l and consumption depends on the driving style.

TECHNICAL SPECIFICATIONS OCTAVIA COMBI RS iV	1.4 TSI/EL/180 kW PHEV
	Turbocharged petrol engine/electric engine
<b>ENGINE</b>	
Cylinders/Cubic capacity (cc)	4/1,395
Max. performance/Revs (kW/rpm)	110/5,000–6,000, el. 80, Σ180
Max. torque/Revs (Nm/rpm)	250/1,550–3,500, el. 330, Σ400
Air pollution regulation	EU6AP
Fuel	Petrol, RON min. 95
<b>PERFORMANCE</b>	
Maximum speed (km/h)	225
Acceleration 0–100 km/h (s)	6.9
Fuel consumption WLTP (l/100 km) – combined	1.2–1.3
CO <sub>2</sub> emissions WLTP (g/km) – combined	28.2–30.0
Electric consumption WLTP (kWh/100 km) – combined	15.1–15.4
Pure electric range WLTP (km) – combined	59.4–60.7
<b>CHARGING</b>	
AC 2.3 kW (0–100%) / AC 3.6 kW (0–100%)	5 h / 3 h 33 min
<b>POWER TRANSMISSION</b>	
Type	Front-wheel drive
Transmission	Automatic 6-speed DSG
<b>WEIGHT</b>	
Kerb weight – with 75 kg driver (kg)	1,706–1,825
Payload – incl. driver and extra equipment (kg)	390–479
Total weight (kg)	2,110–2,140
Trailer load without brakes (max. kg)	750
Trailer load with brakes – 12% (max. kg)	1,500
